

I like maths because our class pushes you to the limit.

I like my maths lessons because maths = good teachers + challenging + amazing teachers.

I like maths because there are different sheets to help others and you can help others or receive help yourself

I like maths because it helps me solve problems which help me with life.

I like maths because I most of the time understand what I am doing.

## What we like about Mathematics

I enjoy division because it can be hard but I like all the different methods.

I'm enjoying maths in class because I understand it very well.

I love maths because it challenges me and it's all about trial and error. It's also fun and you can make mistakes but it's ok.

I like long division in maths because I usually get it wrong but I've started getting it right.

I like maths because it is fascinating.

I like the times tables and division because when you learn them maths is really easy.

The best part of maths is where you have to know your times tables and division.

I like maths because I like questions.

I like maths because it is interesting learning about different things.

I love maths because its uses physical resources.

I enjoy maths because sometimes I find it easy.

I like maths because it is fun to subtract and learn about shapes.

I like maths because it is really fun!

I like division as I am good at it so I am good at maths.

I like how we do natural disasters and watch videos. We also have questions that make our brain work.

Maths is my favourite subject.

I like maths because it teaches me new things.

I enjoy having lots of questions and I particularly like the explain how you know questions.

I am proud of the work I have done on numbers beyond 1000 as it was challenging and I did well.
