Music Road Map

Kempshott Junior School recognises that music is a powerful, unique form of communication that is used to develop self-confidence, creativity and a sense of achievement. During music lessons, pupils are given the opportunity to become real musicians and recognise that music can affect the way people feel, think and respond. Music is an integral part of our world, both past and present, and through experiencing and studying a variety of music, children will develop a love and appreciation of this universal language.
Kempshott Junior School currently uses Charanga Music scheme. The Charanga Musical School Units of Work enable children to understand musical concepts through a repetition-based approach to learning. Learning about the same musical concept through different musical activities enables a more secure, deeper learning and mastery of musical skills.
