KNOWLEDGE ORGANISER

Should the Douglas family move to Kempshott?

Previously, I learnt to…

- Identify human and physical features in my local area.
- Use simple compass directions.
- Use aerial photographs to identify geographical features.
- Carry out simple fieldwork in the school grounds.
- Describe where places are located.

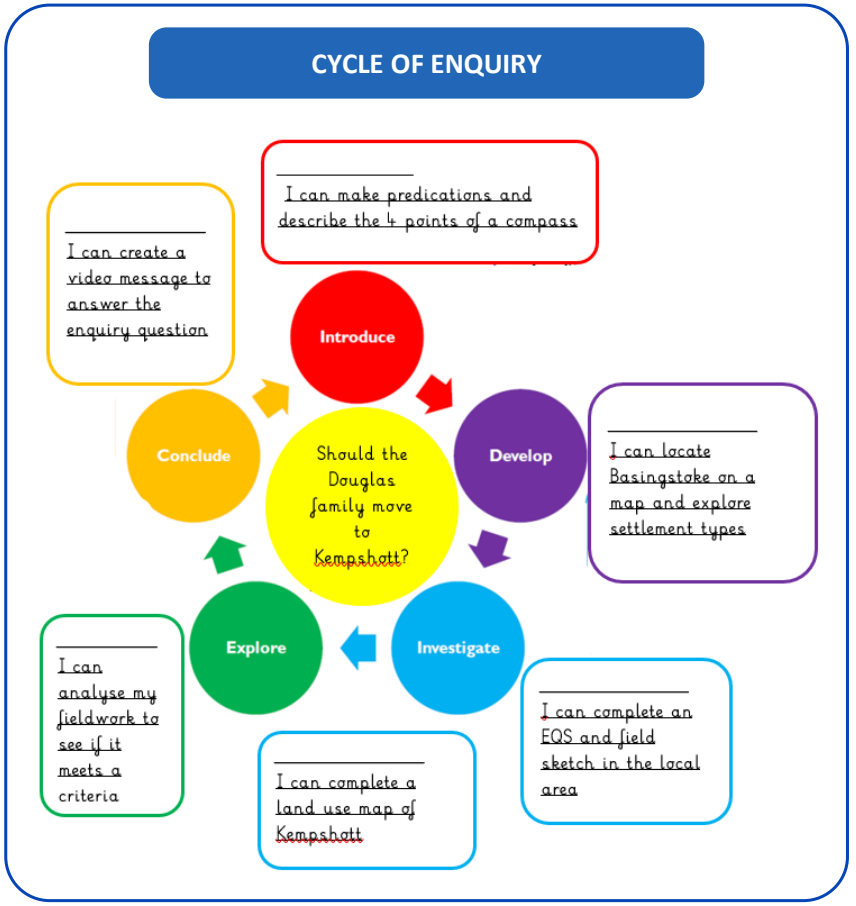

In this unit, I am learning to…

- ❑ Use the four points of a compass.
- ❑ Locate Basingstoke within Hampshire and England.
- ❑ Identify different types of settlements.
- ❑ Explain how land is used in Kempshott.
- ❑ Use maps and aerial photographs to identify geographical features.
- ❑ Carry out fieldwork in the local area.
- ❑ Create a land-use map.
- ❑ Collect and analyse fieldwork data.
- ❑ Use evidence to answer a geographical enquiry question.

Looking ahead: In UKS2, I will learn to…

- Use the eight points of a compass.
- Use four and six-figure grid references.
- Explain how land use changes over time.
- Compare places using a range of maps.
- Carry out more advanced fieldwork investigations.
- Use digital mapping and GIS to analyse a place.

Settlement Types

A settlement is a place where people live and work. Villages, towns and cities are different types of settlements. Kempshott is part of the town of Basingstoke.

Hare Warren - Hamlet

Oakley – Village

Basingstoke – Town

Winchester – City

2

Basingstoke and Hampshire

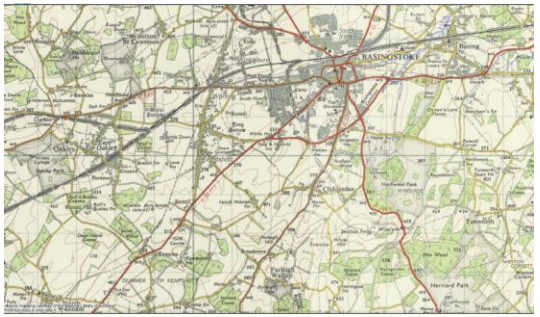

Basingstoke is a large town in Hampshire in the south of England. Hampshire is a county that is bordered by Dorset, Wiltshire, Berkshire, Surrey and West Sussex.

3

Land Use

In Kempshott we can find different types of land use, including housing, businesses, parks and transport routes. Maps and aerial photographs help geographers identify how land is used.

4

Compass Directions

A compass helps us find direction. The four main points of a compass are north, east, south and west. Geographers use compass directions to describe the location of places.

5

Fieldwork

Fieldwork helps geographers collect information about places. Geographers use sketch maps, land-use maps and Environmental Quality Surveys (EQS) to gather evidence.
